2. I hate to delete the CIA Orientation for Spouses Course. Can't we wait through 1986 to see if we can get 20 students per class? If not, we will can it. *Bring them in on Saturday for a quick morning briefing.*

3. I don't see the  Course on the list. This is the five day course which is being reduced to two and a half days. I think we should review the shorter version before it is used.

STAT

4. I was surprised to see Orientation to the DS&T for CTs listed as a separate course. This is part of the CTDC. If it's listed separately, double counting of student and instructor days is bound to result.
